Dr. T.V. PADMANABHAN, MDS.,

CHAIRMAN - INDIAN BOARD OF PROSTHODONTICS
SECRETARY - ASIAN BOARD OF PROSTHODONTICS

TITLE : CARE OF STOMATOGNATHIC SYSTEM FOR OVERALL WELL BEING OF THE AGED POPULATION

Aging is inevitable sequelae of life. It is natural for the individual systems in the body to stop functioning or reduce efficient functioning. The most ignored of all the system is the stomatognathic system, which is the most used on a daily basis. This presentation will discuss the oral aspects of aging, the implications of poor oral health leading to deterioration of other systems and the importance of special care for the elderly from the prosthodontic view point.

Dentistry has developed by leaps and bounds, digital technology has revolutionized the treatment planning and rendering to the patients. Included in the presentation is digital technology in AGeD population.

Dr. SHARATH ASOKAN, MDS, Ph. D.,

PRINCIPAL, DEPARTMENT OF PEDIATRIC DENTISTRY,
KSR INSTITUTE OF DENTAL SCIENCE AND RESEARCH,
TIRUCHENGODE

TITLE: SUPERCALIFRAGILISTICEXPIALIDOCIOUS

Effective communication in dentistry is extremely important for a successful clinical practice. This presentation throws light on the often unsung part of patient care - soft skills in dentistry. It discusses both verbal and non-verbal aspects of communication, role of active listening, body language, haptics and proxemics in clinical practice. This presentation can help a new graduate or clinician in establishing rapport with their patients, explaining treatment options, and in addressing patient concerns.
